**GLOBAL URANIUM CORPORATE UPDATE APRIL, 2008**

Toronto, ON, April 22, 2008 – Global Uranium Corp., (“Global” or “Company”) a private Ontario corporation, reports the following update on its activities and plans:

**Highlights:**

- New uranium discoveries on targets identified by airborne geophysics
- Initial Public Offering planned for Q4 2008, depending on market conditions.

**Tin-Negouran Concessions:**

- Extensive drill program, with in excess of 22,000 metres completed in 766 drill holes, has outlined five areas of surface uranium mineralization
- Resource estimate is currently underway on the first surface deposits identified by drilling.
- NI 43-101 report to be completed by the end of June, 2008
- Initial studies indicate potential for an open pit, heap leach operation

**Adrar-Emoles Concessions:**

- Located near Areva’s large Imouraren uranium deposit
- Good infrastructure
- Previous drilling by Cogema (now Areva) identified “hot” areas for follow-up drilling
- Data compilation completed and drilling will commence on two initial target areas in May, 2008

**In Memoriam - Geoffrey Myers**

It is with deep sadness that we report the sudden death of one of our founding directors and corporate legal advisor, Mr. Geoffrey Myers. He will be greatly missed and we offer sincere condolences to his family.

**About Global Uranium Corp.**

Global Uranium is a private Ontario corporation founded in January, 2005 by executives with extensive experience in the mining and marketing of uranium. The Company has exploration agreements on six uranium concessions in the Republic of Niger, covering an area of approximately 3,000 km<sup>2</sup>, as well as owning a database consisting of numerous uranium exploration targets around the world collected over a 30 year period by a major Canadian uranium producer.
